HENRY'S SHORTHAND SCHOOL

196 SPARKS STREET,
OTTAWA, ONT.

Our location at the top of the Arcade Building, 196 Sparks St., is, indeed ideal. It is at the doorway of Ottawa's busiest corner, far above the noise and bustle of the street, and, towering above the surrounding buildings, gives us bright, airy rooms, enabling the students to enter upon the pursuit of their course with a feeling of pleasure rather than of task.

All who have seen our set of rooms are unanimous in the opinion that there is not another school like it in Canada.

A polite elevator service, which greets you as you step into the beautiful entrance, takes you to our magnificent school.

Locating Missing Heirs

Finding Lost Persons

This is only one of the many offices that the modern directory successfully fills.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these *"City Catalogues"* contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and sub-divisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and complete.

Make More Use of Your City Directory!

MIGHT'S DIRECTORY LIBRARY, containing Important Directories of Canada and the United States, are for Free Reference at 76 Church Street or in Ottawa at Board of Trade Office, 26 Wellington Street.

LA CITE DE HULL, QUE.

Hull est la plus jeune des villes de la province de Québec; ses débuts ont été des plus humbles; elle n'a pas eu comme ses soeurs ainées Québec, Trois-Rivières et Sorel l'avantage d'assister aux débuts de la colonie et d'écrire en lettre d'or dans l'histoire de notre pays les rècits merveilleux des actions héroiques accomplies par leur fontateur respectif et leurs compagnons d'armes.

Hull n'a que 125 ans d'existence; elle fut fondée au mois de mars 1800 par Philémon Wright qui était né à Hull, Angleterre et qui arrivait ici alors âge de 40 ans, venant de l'état de Massachusett.

Ces débuts furent difficiles, car en 1828, c'est-à-dire 28 ans plus tard il n'y avait que 703 habitants, en 1846 il n'y avait encore que 1635 habitants.

Toutefois sa position géographique et ses avantages naturels, devaient absolument un jour ou l'autre lui permettre d'occuper la place qui lui convient, et c'est pourquoi dès 1875, elle obtenait sa charte de Cité; depuis lors elle a toujours marché d'un pas lent mais sûr vers les sentiers de la prospérité, et pourtant peu de ville sur ce continent ont subi autant de revers; par deux fois en 1888 d'abord et en 1900 ensuite, une conflagration la détruisait de fond en comble. Mais rien ne découragea ni rebuta ses citoyens et chaque fois se remettant à l'oeuvre, ils la rebâtirent plus grande et plus belle.

Hull, est aujourd'hui la troisième ville de la province de Québec, non seulement par sa population qui dépasse maintenant.

26,213

âmes, mais à tous les points de vue.

Elle a l'avantage d'être comme Brooklyn vis-à-vis New York; elle est réuni à Ottawa, Ottawa, la capitale fédérale, par trois gigantesques ponts métalliques et n'en est séparée dans toute sa longueur que par la rivière Outaouais, qui est la voie naturelle qui réunit les grands lacs à l'Océan, et juste au point précis ou convergent toutes les routes commerciales du pays.

La ligne principale du Canadien Pacific avec tous ses trains transcontinentaux la traverse de long en large, à angle droit.

Les tramways de la compagnie Hull Electric en font le tour et la sillonnent en tous sens.

En réalité il est bien peu d'endroits que la Providence destinait plus que Hull à devenir un grand centre d'industrie; en effet la ville de Hull compte aujourd'hui 32 industries, dont la plus vieille et la plus importante-est la compagnie Eddy, qui comme manufacture d'allumettes est la deuxième en importance du monde entirer.

Au point de vue municipal, les biens imposables dépassent à l'heure actuelle $28,000,000.00; les biens non imposables sont au-delà de $5,000,000.00; et le budget annuel tout en dépassant un demi million, ne surcharge pas les contribuables qui ne payent qu'un centin et demi dans la piastre. La Cité de Hull n'a que $3,500,000.00 de dettes et possède des biens en propres pour au-delà de $5,000,000.00.

Toutes les rues commerciales et principales sont pavées sur une longueur de plus de huit milles, et toutes les autres rues, grâce a un outillage parfait et des plus modernes, sont en parfait ordre à base de macadam.

Chacun des six quartiers municipaux possède deux et même trois écoles, dont la valeur atteint cette année l'énorme somme de $1,046,295.00.

Cette année 4851 enfants se sont inscrits. La Cité de Hull possède en plus une des grandes écoles normales de la province et une école Technique qui est une des mieux organisée.

L'hôpital du Sacré-Coeur sous la direction des révérendes soeurs de la Providence est des plus modernes.

La population est presque totalement canadienne-française et les quelques centaines d'autres de nationalités differentes qui demeurent dans la Cité de Hull vivent en parfaite harmonie.

La main d'oeuvre est avantageuse et à des conditions plus favorables que partout ailleurs; presque tous les ouvriers sont propriétaires de leurs habitations.

Les grèves sont presque inconnues a Hull, car voyez-vous le Hullois est paisible, charitable, religieux et homme de devoir; il vit heureux.

Voici ce qu'elle à sa portée dans les deux grandes riviéres qui la bornent et en font un centre industriel de distribution.

Sur la rivière Gatineau qui a une superficie de drainage de 9500 milles-carrés avec une force de 682,500 chevaux vapeurs répartis comme suit:

Rapide	Farmer	30,600 C.V.
	Chelsea	62,000
	High	100,000
	Cascades	23,700
	Paugan	125,000
	Mountain	32,500
	Bully	32,700
	Rapides des Eaux, Joseph Eddy, Burnt, Hardwood & Snake	276,000
	Total de	682,500 C.V.

Paugan Falls est présentement sous dévelopement par la Hull Electric et le C.P.R. ce qui donnera à notre ville 125,000 C.V. pour les industries futures.

La rivière Ottawa qui a elle seule possède une force motrice de 1,039,000 chevaux vapeurs répartis comme suit:

Chute des Chaudières	95,000
Deschênes	63,000
Chats	150,000
Chenaux	91,000
Portage	40,400
Calumet	76,000
Rocher Fendu	102,000
Allumettes	75,000
Culbute	6,000
Black	5,200
Des Joachims	80,800
Capitaine	108,000
Johnson	7,000
Cave	18,300
Erables	21,300
Long Sault	82,000
Total	1,021,000. C.V.

La compagnie Ottawa & Hull Power qui avec sa filliale the Ottawa River Power Co. Ltd. ont fait un gros developpement à Bryson de trois unités de 25,000 C.V. qu'ils transmettent à Hull pour les fins industrielles.

Niagara avec ses 400,000 C.V. d'énergie ne représente pas le quart des forces hydroliques dont Hull est le centre.

En effet la Cité de Hull a dans un rayon de 40 milles seulement, plus de 1,700,000 C.V. d'énergie électrique en disponibilité.

Il n'y a pas de chutes d'eau sur les tributaires de l'Ottawa en Ontario tandis que ceux de la rive Nord, descendent des montagnes comme des torrents intarrissables.

Hull est le plus grand centre de production du bois dans l'univers entier, et l'expédition s'en fait en grand partie par voie de Hull.

La modicité du prix de l'énergie électrique et les moyens faciles de transport amèneront dans Hull des industries aussi nombreuses que variées et rémunératrices. Les industries actuelles prendront une expansion inespérée, la population dans une proportion étonnante augmentera encore plus que durant les derniers cinq ans.

le 17 Août, 1927.

THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

The City Directory

places the city on the map and is the only representative to the world beyond its own gates.

It's the community's catalogue of business and represents the city, its citizens and institutions in every corner of North America.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and its resources.

The man who directs the affairs of progressive and up-to-date business institutions recognizes the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its classified business section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers guide and is the best advertising medium on earth.

ADVERTISING OTTAWA

ONTARIO

is being placed in Directory Libraries and among commercial bodies, business men's clubs, chambers of commerce, and large business institutions, throughout the continent.

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

THE PUBLISHERS ARE DOING EVERYTHING POSSIBLE TO MAKE THIS DIRECTORY A CREDITABLE REPRESENTATIVE OF
